

13. Use the smallest ear cutter and cut a shape. Remove the cutter from the clay, move down slightly and cut again to create a crescent shape for the eye. Make two

14. Score and slip the eyes in place

15. roll small balls of clay and flatten to make cheeks. Score and slip in place

16. All done! Flip over the face into the Palm of your hand and remove the mould so your face can dry evenly. Add a hook if you'd like
