

Make a Round Trinket Dish with me...

Cutters For Clay

www.cuttersforclay.co.uk

1. Roll out your clay to 7mm thick - we've used our handy clay spacers to help

2. Dust your mould with talc or cornflour and lay handle side down

3. Drape your clay over the mould

4. Firm the clay around the mould with your hands then use a damp sponge to smooth out the shape

5. Dust your cutter then place over the mould & cut your clay. Leave the cutter in place for now

6. Flip over the mould, cutter and clay & press the cutter up & over

7. Very gently, smooth over the edges of your trinket dish with a damp sponge

8. Give the mould a little twist & lift away from the clay

9. Neaten your edges again with the damp sponge. Add any additional design or texture as you wish

10. Leave your trinket dish on a flat surface to dry

11. To avoid any warping during drying, place a small board or tile on top & check regularly while drying to ensure the shape remains the same

12. Ta-dah!
