

Fungi Friends Project Sheet

Cutters For Clay

www.cuttersforclay.co.uk

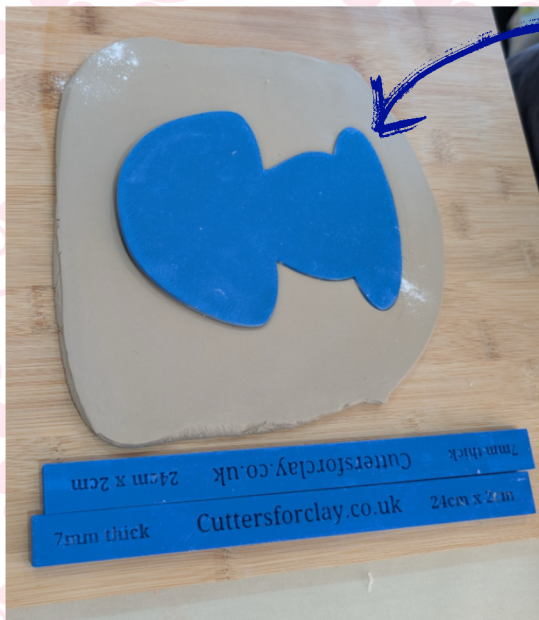

Fungi Friends Equipment List

- clay
- a pair of rolling spacers
- rolling pin
- needle tool
- cheese wire
- ball of clay to make a slip pot
- needle tool or pointed spatula
- small pot of water
- paint brushes
- foam sheet/board
- kitchen roll
- paint
- pallet
- silicone moulds
- toadstool stamp and cutter set
- pot of baby powder
- fluffy brush

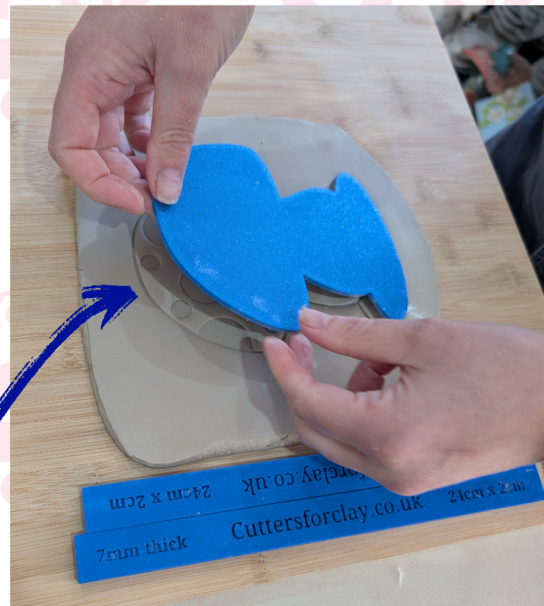

1. Your clay project station should be set up something like this...

2. Lightly brush the design side of the stamp with baby powder and a fluffy brush then lay the toadstool stamp onto the 7mm thick rolled out clay

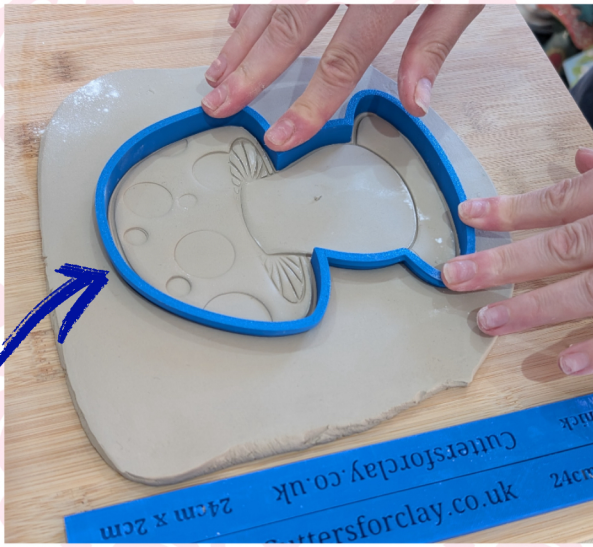

3. Firm the stamp into the clay

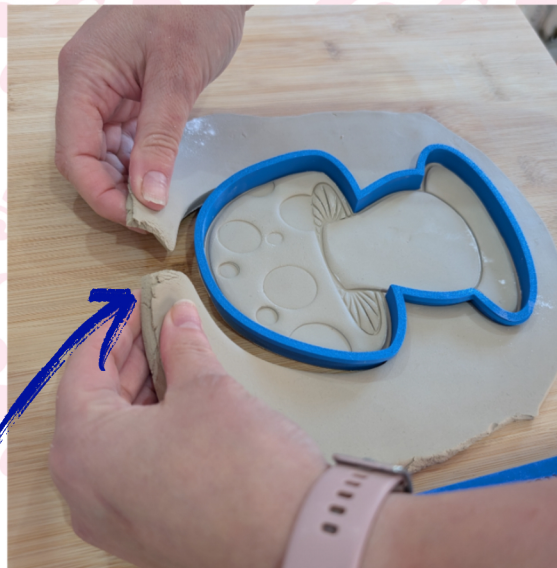

4. Gently lift one side of the stamp away from the clay

5. Lift away the stamp from the clay. The baby powder should stop the clay from sticking

6. Line up the toadstool cutter over the stamped toadstool design and firmly press down to cut the clay

7. Tear away the excess clay from around the cutter

8. Remove the excess clay to reveal your whimsical toadstool

9. Use a needle tool or spatula to tidy up the edges of the toadstool

10. Make any additional clay details you'd like using our silicone moulds. Remember to score and slip them in place to make sure they are firmly attached
